EXTERIOR CLEANING PROPOSAL

DRONE SHINE

THE SHINE, WITHOUT THE CLIMB.

Roofs · Facades · Windows · Flat Work · Common Areas
Commercial · Industrial · Residential · Statewide Florida

Drone Shine Cleaning Services · (855) 376-6392 · DroneShineCleaning.com

WHY PROPERTY MANAGERS ARE SWITCHING

SAFER

No workers at height. No physical contact with your structure.

FASTER

Jobs completed 50–70% faster than traditional methods.

CHEAPER

More cost-effective than heavy-equipment cleaning — no lifts, no scaffolds.

01 · SAFER BY DESIGN

- ✓ No ladders, scaffolding, or lifts
- ✓ No heavy equipment — no property damage
- ✓ No contact with your structure, no roof walking
- ✓ Reaches places historically difficult to clean

02 · SMARTER RESULTS

- ✓ Drone precision, surface-safe pressure
- ✓ Minimal on-site disruption — no lifts or trucks on drives
- ✓ Documented before/after photo & video proof
- ✓ Spot-free deionized water rinse

FULL-SERVICE EXTERIOR CLEANING

ONE COMPANY. THE ENTIRE EXTERIOR.

AERIAL CLEANING SERVICES

- ✓ Buildings & Facades
- ✓ Windows
- ✓ Roofs
- ✓ Solar Panels
- ✓ Silos & Above-Ground Storage Tanks
- ✓ Billboards

FLAT WORK

- ✓ Driveways
- ✓ Walkways & Sidewalks
- ✓ Entryways
- ✓ Curbs
- ✓ Warehouse Loading Docks
- ✓ Truck Parking Pads
- ✓ Dumpster Pads
- ✓ Pool Decks

PARKING GARAGES — decks, ramps & stairwells. One vendor for everything outside the walls.

SERVICES

EVERY SURFACE. ONE AIRCRAFT.

01 FACADE CLEANING Buildings, entry walls & common areas

02 WINDOW CLEANING Spot-free deionized rinse, no streaks

03 ROOF CLEANING Tile, shingle & flat roofs — no one walks your roof

04 SOLAR PANEL CLEANING Maximizes energy efficiency & output

05 INDUSTRIAL CLEANING Tanks, silos & structures — no confined entry

Apellix commercial cleaning drone — heavy-lift X8 airframe, precision nozzle, ground-tethered soft-wash line. Targeted, controlled, fully hands-off.

Apellix drone mid-wash — window cleaning at height, nobody on a ladder

THE AIRCRAFT WE FLY · SPECIFICATIONS

05

APELLIX BLUE POWER WASH SYSTEM

NDAA compliant · Made in Jacksonville, Florida, USA

PRESSURE	**4,000 PSI** Up to 240 bar at pump
OUTPUT	**11 GPM** Up to 42 liters per minute
MAX HEIGHT	**195 FT** Up to 60 meters
DRONE WEIGHT	**23 LBS** Light on any site
SENSORS	**LEFT/RIGHT OBSTACLE AVOIDANCE**
NDAA COMPLIANCE	**SECTIONS 848 & 889**
MANUFACTURING	**JACKSONVILLE, FL, USA**

WINDOW CLEANING SERVICES

SPOT-FREE GLASS — AND WATCH IT HAPPEN LIVE

- ✓ FAA Part 107 certified Apellix drone
- ✓ 100% pure deionized water rinse
- ✓ Safe, eco-friendly cleaning solutions
- ✓ Zero workers at height

WITHIN 48 HOURS

Before/after documentation after every visit

WINDOW CLEANING · LIVE FOOTAGE

LUXURY APARTMENTS — WATCH THE WASH

Luxury apartment community · drone window cleaning — 100% deionized rinse, spot-free glass

CASE STUDY · FACADE CLEANING

UNIVERSITY OF FLORIDA · RESEARCH BUILDING

BEFORE · Algae · Mold · Pollution

AFTER · Single pass

Years of algae, mold & pollution — gone.

MULTI-STORY
Facade height

2 DAYS
Full building cleaned

ZERO
Workers at height

APELLIX
Commercial drone

ORLANDO MAGIC TRAINING CENTER

Full facade & window clean — roof to curb, zero workers at height

THE DETAIL, UP CLOSE

DETAIL-LEVEL CLEAN

Panels, letters and logos — the drone cleans around signage without touching it.

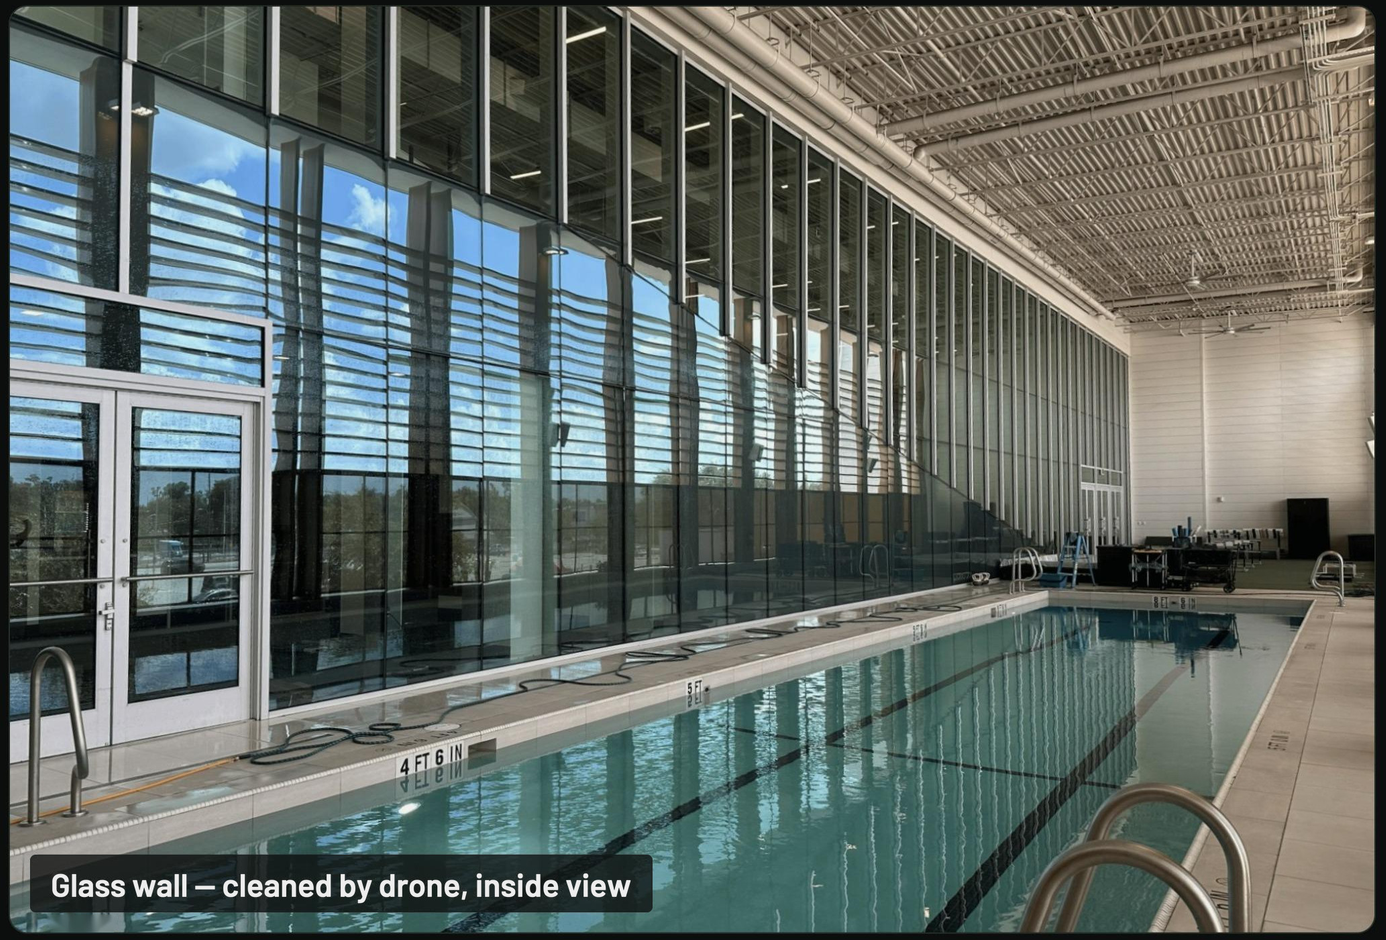

BRAND-SAFE

Your building is your billboard — grime-free panels keep the logo crisp from the street.

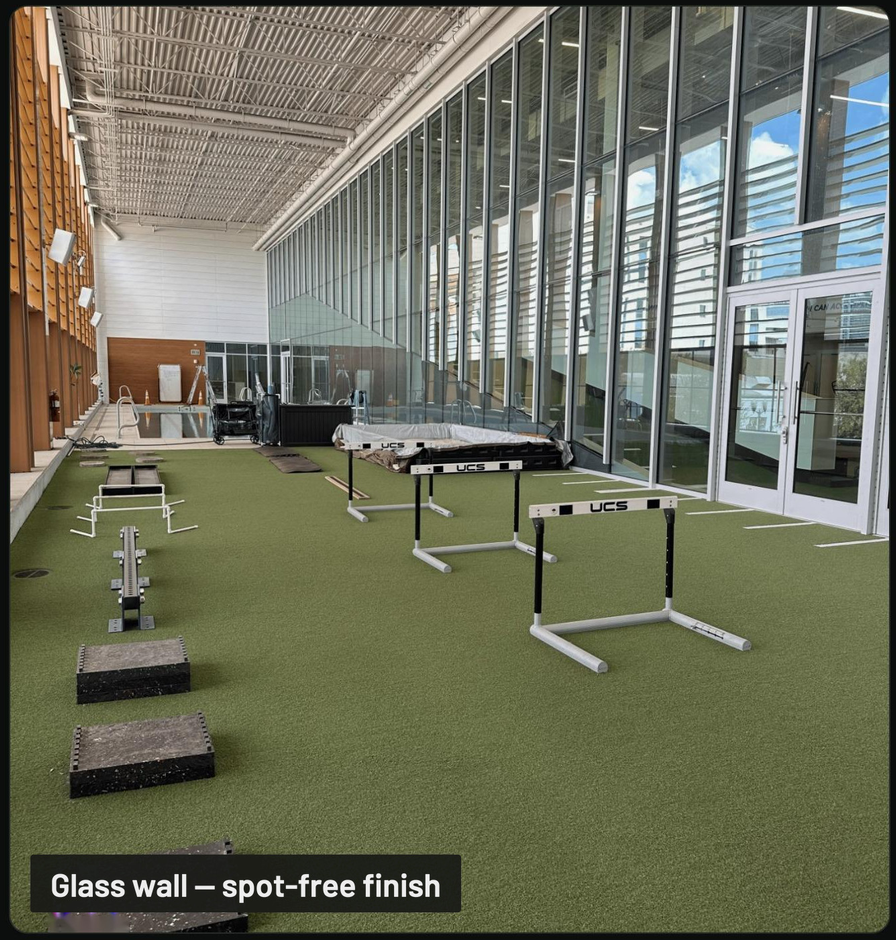

SHOT FROM THE DRONE

Every clean documented at altitude — this is the proof you get after each visit.

GLASS SO CLEAN IT DISAPPEARS

Glass wall — cleaned by drone, inside view

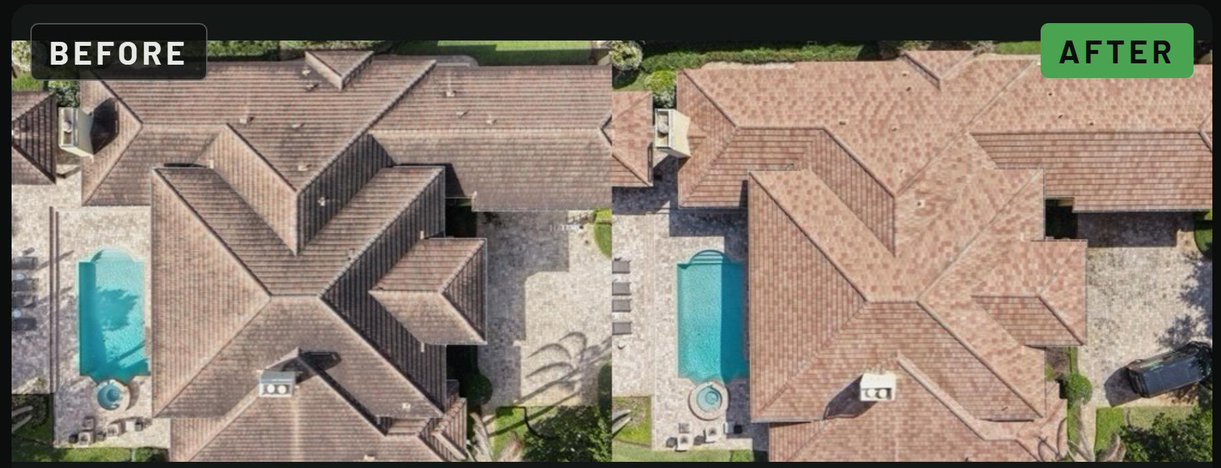

Glass wall — spot-free finish

Completed windows at the Orlando Magic Training Center — spot-free deionized rinse, zero streaks, zero workers at height

NO BOOTS ON ROOFS. NO LADDERS. NO LIFTS.

SOFT-WASH APPLICATION

Controlled low-pressure spray removes algae, mold and staining — safe on shingle, tile and membrane roofing.

ZERO ROOF TRAFFIC

No workers walking the roof — no foot-traffic damage, no fall risk, no liability on the properties you manage.

GUTTER CAPTURE INCLUDED

Runoff is captured at the gutters — cleaning solution never reaches landscaping, walkways or storm drains.

As featured in Cleaner Times — "Cleaning Three-Story Residential Tile Roofs: A Modern Approach"

SILOS & TANKS — INDUSTRIAL SCALE, ZERO ENTRY

YEARS OF STAINING, GONE

Run-off streaks, algae and industrial grime lifted from the full height of the structure.

NO SCAFFOLDS, NO LIFTS

The drone reaches every band of the silo — no rigging, no confined-space entry, no shutdown.

FACILITY STAYS RUNNING

Cleaning happens from the air while your operation keeps moving below.

FACADES — STUNNING BEFORE & AFTER

REMOVES YEARS OF BUILDUP

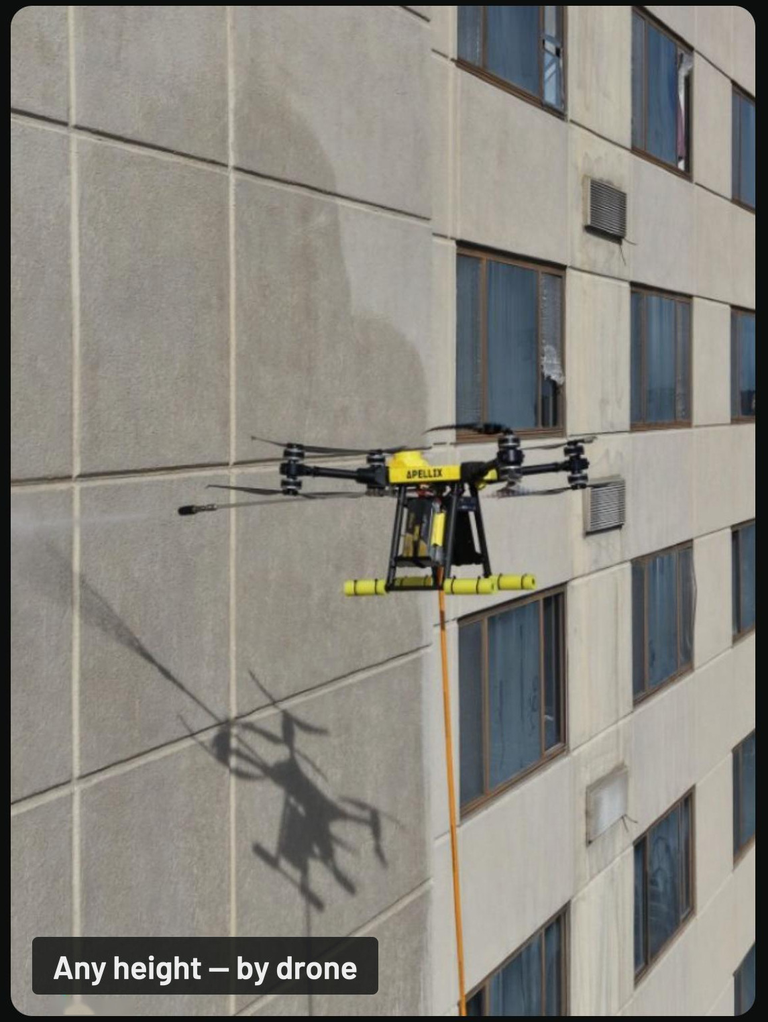

Algae, mold, mildew and staining lifted from stucco, stone and concrete across every property you manage.

ANY HEIGHT, NO EQUIPMENT

Second stories, gables and peaks reached by drone — nothing touching the building or landscaping.

LONGER-LASTING CLEAN

Treatment kills organic growth at the root, so staining stays gone longer than pressure washing.

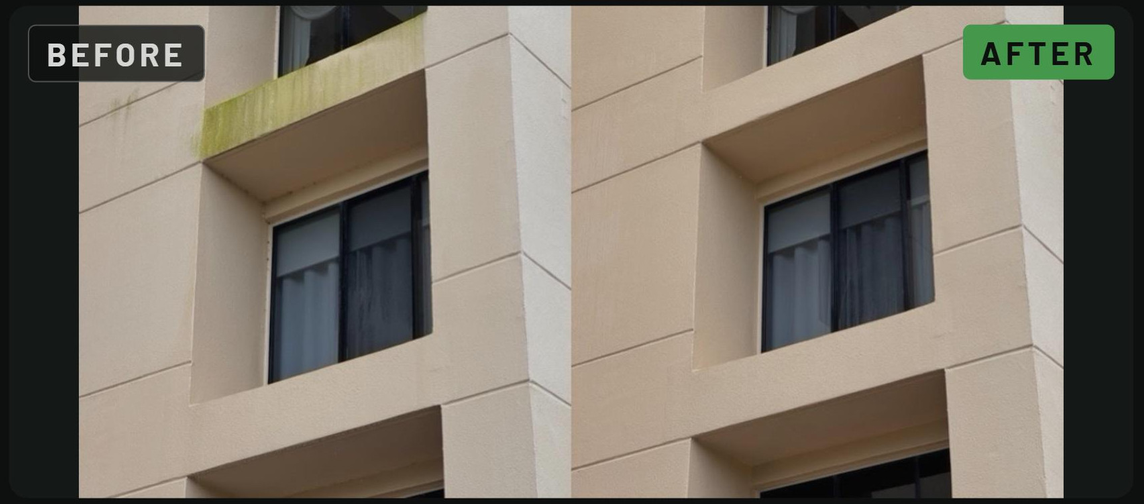

Any height — by drone

FACADE RESULTS — DOCUMENTED AT DRONE ALTITUDE

Live facade wash — no lifts, no ladders

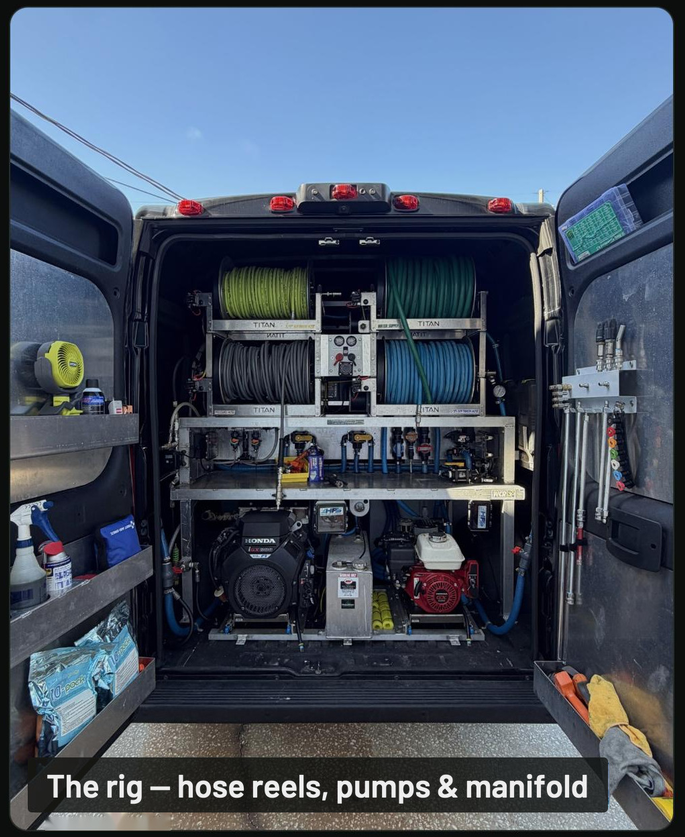

Treatment kills growth at the root — the clean lasts longer

OUR EQUIPMENT

THE RIG BEHIND THE SHINE

The DroneShine fleet — fully wrapped & self-contained

The rig — hose reels, pumps & manifold

01 · NO HEAVY EQUIPMENT

Drones, pumps, filtration and soft-wash chemistry all ride in one van — no heavy equipment on your property.

02 · GROUND-TETHERED SUPPLY

The drone flies light — water and solution pump up from the van through a tethered line.

PURE WATER, MADE ON SITE

01 Multi-stage filtration & DI

02 Pure water produced on site

03 Zero residue — spot-free glass

THE FOAMING NOZZLE ADVANTAGE

01 CLINGS & DWELLS

Foam holds onto vertical surfaces instead of sheeting off — longer contact time means a deeper clean at lower pressure.

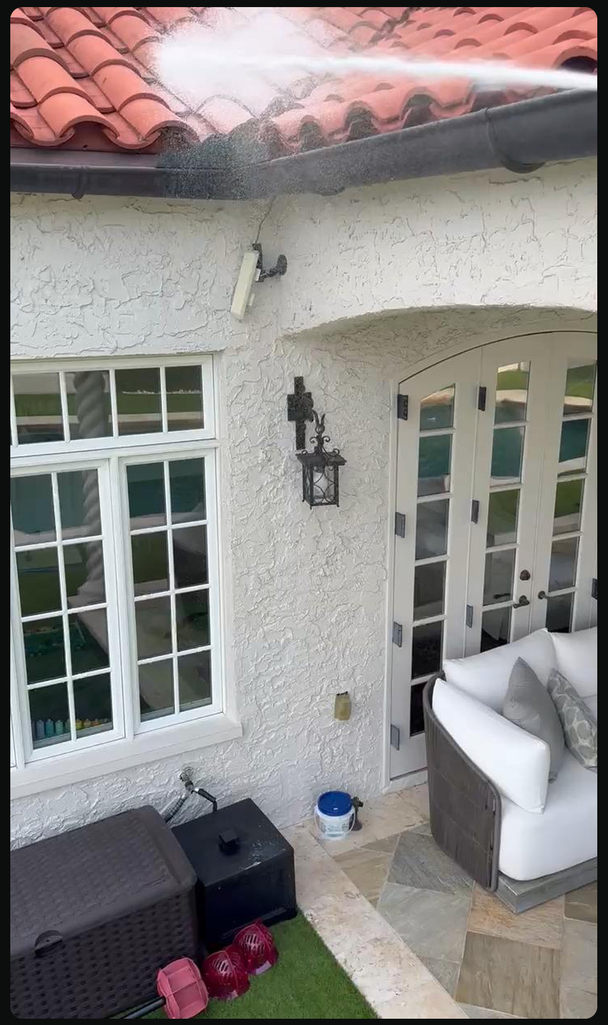

02 VISIBLE COVERAGE

You can see exactly where the solution has been applied — every inch treated, no missed spots.

03 LESS RUNOFF, LESS CHEMICAL

Foam stays where it is sprayed — less overspray, less product used, and less runoff around landscaping.

Deeper clean · Less chemical · No missed spots

Proven at your kitchen sink: Dawn Powerwash switched to a foaming nozzle for the same reason we did — foam clings, dwells and cuts grime faster than liquid spray.

THE SAME SAFETY PROTOCOL ON EVERY VISIT

SITE SETUP

SIGNAGE + YELLOW CAUTION TAPE

Work zone marked with posted signage and tape before the drone lifts off — staff and visitors kept clear at all times.

FAA LAANC

FAA APPROVAL VIA LAANC

Every flight receives FAA airspace authorization before takeoff — Part 107 pilots, fully insured, every flight planned and logged.

GUTTER CAPTURE

GUTTER CAPTURE OF RUNOFF

Runoff collected at the gutter line rather than washing onto grounds — protecting landscaping, walkways and storm drains.

Zero workers at height · Zero liability to you or the property · Every flight documented

OUR CLIENTS & PARTNERS

TRUSTED ACROSS FLORIDA

University of Florida

UNPARALLELED CLIENT SERVICE

A TEAM YOU CAN ACTUALLY REACH

60

MINUTE CALLBACK

Guaranteed — every call and question returned within the hour.

FULL OFFICE STAFF

Real people answer your questions — a full office staff and a dedicated account manager, not a voicemail box.

YOUR PREFERRED SCHEDULE

We clean around your operations — early morning, late afternoon, evening and weekend cleanings.

ZERO CHASING

One point of contact for scheduling, COIs, documentation and invoicing across every property.

A PARTNER THAT MATCHES YOUR STANDARD

01 ZERO DISRUPTION

Drones work weekday mornings — no boom lifts blocking streets or driveways, no scaffolding on buildings or common areas, no disruption to residents, tenants or staff.

02 NO FACADE DAMAGE — EVER

Controlled-pressure application is gentle on tile roofs, stucco and pavers — no abrasion, no water intrusion, no ladder marks.

03 DOCUMENTATION EVERY VISIT

Before/after photos captured at drone altitude — ready for board packets, reserve studies and owner updates.

04 ONE VENDOR, ONE CONTRACT

Roofs, facades, windows and common areas across your whole portfolio — one contract, one COI, one account manager for every facility.

05 FAA PART 107 CERTIFIED

All pilots hold FAA Part 107 commercial certifications and are fully insured — zero additional liability.

06 ORLANDO-BASED, MINUTES AWAY

Headquartered in Orlando — close to the facilities you manage, with flexible scheduling and a local team that knows Florida properties.

NEXT STEPS

THREE EASY STEPS TO BRING DRONE SHINE TO YOUR PROPERTY

1

LIVE DEMO AT A FACILITY YOU PICK

Free water-spray demonstration at any facility in your portfolio — full safety setup, your team watches up close.

2

FORMAL QUOTE

Scope-of-work and fixed-price quote for the areas you choose — you know the total cost before we lift a drone.

3

FIRST VISITS + DOCUMENTATION

First cleaning visits scheduled — before/after photo documentation within 48 hours of each clean.

OUR COMMITMENT

- ✓ Zero workers at height — ever
- ✓ Fixed pricing — no surprises
- ✓ Before/after photos — every visit
- ✓ One COI naming you & the property
- ✓ 24-hr quote turnaround
- ✓ Statewide Florida coverage
